Marshall's "DUROGREEN" LAWN GRASS

Marshall's "Durogreen" Lawn Grass Mixture produces a perfect as well as permanent lawn of luxuriant richness. It quickly forms a closely interwoven, firm and elastic turf ready for cutting in about six weeks from time of sowing. This "*Durogreen*" mixture is the result of years of experimenting and is composed of the proper proportions of fine-leaved, deep-rooting, perennial grasses which will thrive under varied conditions of soil and climate, maintaining a succession of growth during the different seasons of the year, thus insuring a rich, deep green, smooth and velvety lawn, free from clumps.

Lb., 70c; 5 lbs., $3.25; 25 lbs., $15.50; 100 lbs., $60.00.

MARSHALL'S *Lawn Grass Seed*

Marshall's Lawn Grass Seeds have given universal satisfaction for the past 38 years and are used on many of the largest estates in every section of the country for making the best lawns. Our mixtures contain only the best grades of recleaned grasses, blended in proportions to give quick and permanent results.

All Grass Seeds delivered prepaid when cash accompanies the order.

Prices of other mixtures, also separate varieties of Grasses and Clovers, on application.

Marshall's "Matchless" LAWN GRASS

Marshall's "Matchless" Lawn Grass Mixture still maintains a high place in the esteem of those who desire an even, dense growth of permanent sward very early in the season. This mixture contains no annual grasses so detrimental to a permanently good lawn. Only grasses of lasting value and extreme hardiness are used in this popular mixture and we exercise great care to use only the purest seed in the proper proportions in its blending. This mixture is recommended to those who desire a popular-priced mixture for average conditions and requirements.

1 lb. will sow a plot 15 x 15 ft.; 3½ lbs., 25 x 40 ft. (1000 sq. ft.); 150 lbs., 1 acre (43,560 sq. ft.).

Lb. 55c; 5 lbs. $2.50; 20 lbs. $9.00; 100 lbs. $45.00.

Marshall's "Shady Place" LAWN GRASS

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places; for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those adapted for growing in shade. It has been successfully used on some large operations where a green sward was desired on land partially shaded by old trees.

Lb., 75c; 5 lbs., $3.50; 25 lbs., $16.50; 100 lbs., $65.00.

MARSHALL'S
American Grown Tulips

Tulips are unsurpassed for group planting and for naturalizing. When so planted they form brilliant patches of color against the rich verdure of the early summer.

For varieties and prices see opposite page.

Marshall's American-Grown TULIPS

At the time of going to press there seems no possibility whatever of any bulbs being imported from Holland, which was our principal source of supply in former years. Tulip bulbs are and can be grown very successfully in this country, but at present, we do not have all varieties and any great quantity.

We have, however, been fortunate in procuring some excellent bulbs from a grower in this country, and, as the quantities of each variety are not limitless, it would be advisable, if possible, to give us the privilege of substituting a similar color in the same type of Tulip. We will have other varieties not listed, but no great quantities of each.

There are some excellent forcing varieties amongst those listed below. These we have marked (*).

HYACINTHS

At this time we do not see any probability of receiving any Hyacinth bulbs from Europe this season, and, as there are practically none grown in this country, we are not listing them. Should they be available later, we will gladly fill any orders we may have on hand.

We, therefore, would draw your attention to American-grown bulbs: Narcissi, Lilies, and the various bulbs listed in this catalog, which could be used in their place.

Marshall's NARCISSI *and* DAFFODILS

King Alfred

Daffodils are an indispensable factor in the pageant of spring floral beauty, and whether grown as specimens in the garden borders or planted *au nature* in woodland or glade, each blossom seems a concentrated gleam of golden sunshine. Absolutely hardy, they increase in beauty and size year after year. Our list has been carefully compiled and contains all that is best in these splendid bulbs.

The different types are as follows:

The *Incomparabilis* varieties are crosses between yellow Trumpets and Poeticus, with larger crowns than the Barri types.

The *Barri* types have crowns usually not over one-third the length of the perianth petals.

The *Leedsi* varieties always have white perianth petals and the crowns are mostly white or light yellow.

The *Poetaz* kinds have a bunch of flowers on each stem and are very fragrant.

PRE-COOLED NARCISSUS *for Christmas Flowering*

These bulbs have been undergoing a cooling treatment and should be potted up immediately on receipt and placed in a cool cellar for proper root-action which is completed much more quickly than untreated bulbs. They should never be placed in heat until the bud appears in the crown.

AMERICAN GROWN

Order should be placed before July 10th to allow time for precooling. CASE LOTS ONLY.

King Alfred. Golden yellow trumpet. The best for early forcing. Case (100 bulbs), *$17.50.*

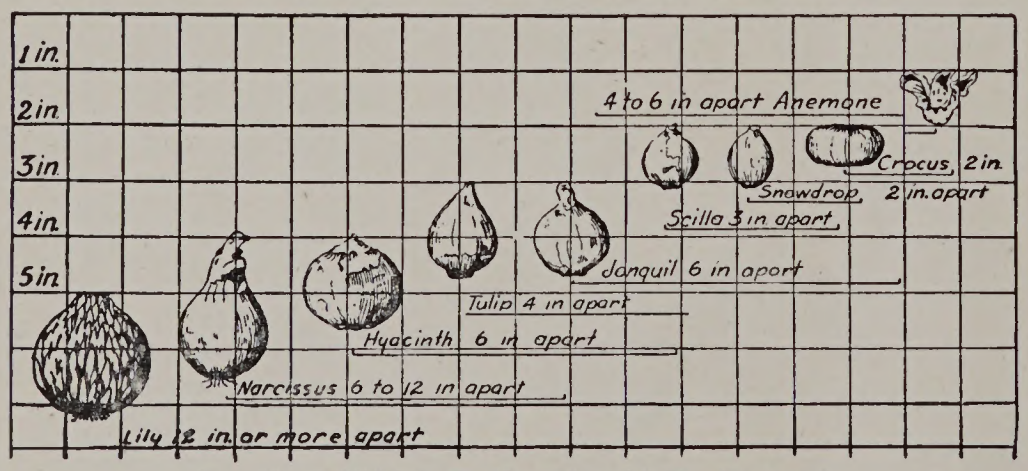
Planting Table for Beds of Bulbs

A circular bed 6 feet in diameter, with bulbs 6 inches apart, requires 110 bulbs; 5 inches apart, requires 160 bulbs; 4 inches apart, 300 bulbs.



Depth at Which Bulbs Should Be Planted

Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram conveys the information much more clearly and briefly than we could describe it. The chart will bear careful study. Outdoor planting should be done early in the fall to secure healthy plants, vigorous foliage and beautiful flowers.

Poeticus Ornatus

DAFFODILS FOR NATURALIZING

There is no more enchanting picture in spring than a natural planting of Daffodils, so arranged in groups that the individuality of each species may be maintained. An irregular massing should be made where the grouping is dense in the center with a thinning out toward the edges like a summer cloud.

We have made most satisfactory arrangements with an extensive grower of Narcissus in the northwestern area of the State of Washington, a section renowned for growing sturdy Daffodils, to supply us with a quantity of bulbs of certain varieties that are most adaptable for naturalizing purposes.

Practically any soil has been found suitable but when planted under trees and in woodlands, the leaves of the trees should not be removed, as taking away this natural food will not only injure your trees but will prevent the Daffodils from producing as they should.

Plant 8 inches deep but avoid places where water may collect as they like drainage.

Plant them before October 15th or shortly thereafter. Place your order early as the demand is increasing for these bulbs at this special low price.

	100	1000
Mixed, All Varieties	$6.00	$50.00

POLYANTHUS NARCISSUS

The Polyanthus varieties all are suited for growing in pots with pebbles or fibre. They are very free flowering, bearing 6 to 9 flowers on a stem. They are not hardy enough to be planted out-of-doors in the northern states.

	Doz.	100	1000
Grand Soleil d'Or. Yellow with orange cup. Very free flowering	$1.80	$11.00	$98.00
Paper-White Grandiflora. The best Narcissus for growing in water. The flowers are large, attractive in color, and intensely fragrant. Planted in bowls of pebbles and water they will bloom in from 3 to 6 weeks, depending on the season planted. Only the largest bulbs procurable should be used. Small bulbs are not recommended.			
Mammoth Bulbs	1.00	6.50	60.00

Not less than ½ dozen sold at dozen rates.

HARDY LILIES —
of Outstanding Merit

George C. Creelman (The Creelman Lily). Originated in Canada from a cross, using pollen from *L. Sargentiae* on *L. regale*. The vigorous plant bears long brown flower-buds, expanding to a white-faced flower with yellow tube and chocolate anthers. 6 to 8 ft. *Selected bulbs, $3.50 each.*

The late Dr. Griffiths was successful in raising some remarkable hybrids by using *L. Humboldti, L. pardalinum*, and *L. Parryi* as parents. The prevailing colors are cadmium-orange, faintly flushed red, with green at base. All heavily spotted black to red. We offer Shuksan as one of the best.

Shuksan. The flowers are of the Martagon type, colored cadmium, faintly flushed red over the end of petals and dotted black. *$1.50 each; $14.00 per doz.*

Maxwill. An excellent hybrid of *L. Maximowiczi* and *L. Willmottiae*, combining the lateness of the former with the free-flowering qualities of the latter. *75c each; $7.50 per doz.*

The Sunset Lily *(L. Chinooki; L. pardalinum giganteum).* Supposed to be a natural hybrid of *L. Humboldti* and *L. pardalinum*, combining the sturdiness of both species. Tall in growth. Color brilliant red with yellow center and freely spotted maroon. *Large flowering bulbs, $1.00 each; $10.00 per doz.; $75.00 per 100.*

Tenuifolium, Red Star. An entirely new hybrid form of *L. tenuifolium*. The perianth segments do not recurve, thus forming a flat, star-shaped flower. The brilliant red flowers are borne on strong stems. 1 to 1½ ft. *30c each; $3.20 per doz.; $22.50 per 100.*

Tenuifolium, Goldfinch. A splendid new and distinct form of *L. tenuifolium* with large, light golden yellow flowers on strong stems. Well worth growing. *75c each; $7.50 per doz.; $45.00 per 100.*

Marshall's Fall Collection of HARDY LILIES

We have prepared the following collection of Hardy Lily bulbs for delivery in October, a most suitable time for planting. If planted according to directions, should produce an abundance of bloom throughout the entire season, commencing with *L. tenuifolium* in May and finishing with *L. speciosum* in September, and if left alone will increase in beauty and numbers from year to year.

Hansoni. Flowers yellowish orange.
Japonicum Krameri. Soft pink, fragrant flowers.
Martagon. Clusters of purple flowers.
Philippinense formosanum. Long white trumpet.
Regale. White with pink shadings on back.
Speciosum magnificum. White, rosy red blotches.
Tigrinum splendens (Single Tiger Lily).
Umbellatum grandiflorum. Large; brilliant red.

Above Collection, 3 each of 8 varieties (24 good flowering bulbs) with cultural directions, sent postpaid for **$5.00**

MARSHALL'S *Matchless* HARDY LILIES

Among the stateliest of all hardy plants, Lilies, during their respective flowering seasons, constitute the chief attraction in the hardy border. They prefer a well-drained soil, and should remain undisturbed for years. In the autumn give the bulbs a heavy mulching of leaves; coarse manure or straw will prove highly beneficial.

Sizes of bulbs given below are inches in circumference.

Lilium Testaceum

Lilium Wallacei

LILIES *for Forcing*

Marshall's NEW EARLY FLOWERING *Lilium Harrisi*

Our new early strain of Lilium Harrisi was flowered for Christmas with no difficulty last year. The plants carry from six to ten flowers on a stem, and can be highly recommended. Bulbs are available in August.

25 for $22.50 *50 for $43.00*
100 for $85.00

Lilium Harrisi

Lilium Harrisi

Mammoth bulbs. 9 to 11 in.	$0.60	$ 6.00	$45.00
Jumbo bulbs. 11 to 13 in.	1.00	11.00	80.00

A few selected single-crown bulbs for exhibition purposes, measuring 12 to 14 in., *$18.50 per doz.; case (25 bulbs), $35.00.*

L. Longiflorum Giganteum

This variety flowers somewhat later than *L. multiflorum*, but the flowers are larger, of great substance and perfect form.

	Doz.	100
Monster bulbs. 10 to 12 in.	$5.50	$40.00

Lilium Formosanum

The Erabu type from the Island of Formosa. Pure white flowers, larger than those of *L. Harrisi.*

This has become one of the most popular of all of our white Lilies, not only for forcing purposes but in the garden. It is a strong, healthy grower and while the flowers are deliciously fragrant, the fragrance is not overpowering as some Lilies are.

Leichtlini. Grows 3 feet high, with as many as 100 sky-blue, star-shaped flowers of the finest form, and about 1½ inches across. Blooms in long succession. *$1.50 per doz.; $10.00 per 100.*

Chionodoxa

(Glory-of-the-Snow)

A hardy, early-flowering, bulbous plant which is closely allied to the scilla but differs, among other characters, in having a short tube to the corolla. A good companion to the scilla and snowdrop.

Luciliae. Bright blue with white eye. *80c per doz.; $4.50 per 100.*

Sardensis. Dark blue with no white. *80c per doz.; $4.50 per 100.*

Colchicum

(Meadow Saffron)

Colchicums are autumn-flowering bulbs with large, crocus-like blossoms appearing during September and Octoher.

Autumnale major. A large variety of improved type with massive flowers of rosy purple.

Bornmuelleri. One of the very finest species, with long tubed, cup-shaped flowers of rosy lilac. Early flowering.

Lilac Wonder. Beautiful shade of lilac-mauve, of uniform tone. Very large and extremely free flowering.

Above Colchicums: 50c each; $5.00 per doz.

(We cannot supply bulbs of Colchicum after latter part of Septemher.)

Crocus, Spring-Flowering

Kathleen Parlow. White.

Mammoth Yellow. Golden yellow.

Purpurea grandiflora. Purple-blue.

Queen of the Blues. Light blue.

Grape Hyacinths

(Muscari)

Charming, hardy spring-flowering bulbs. They are something like the hyacinth, but the clusters are smaller and the individual flowers are smaller and of different shape. Invaluable for naturalizing.

Armeniacum. Deep cobalt-blue flowers, larger than Heavenly Blue; very fragrant. Fine for massing or forcing. *95c per doz.; $6.00 per 100.*

Heavenly Blue. Fine for mass planting in borders. *95c per doz.; $6.00 per 100.*

Plumosum *(Feathered Hyacinth).* Handsome, feathery plumes of violet colored flowers; a most unusual and very attractive flower. *$1.30 per doz.; $9.00 per 100.*

Helleborus Niger

(The Christmas Rose)

This interesting hardy plant can be grown in any sheltered position. Frost and snow apparently have little effect on its blooming, as whenever a thaw happens in the early winter, the flowers appear untouched.

The color is white, suffused with pink, and if sheltered in a glass cold frame they will turn almost pure white; on stems from 6 to 12 inches in length, flowers from 2 to 3 inches across. *Extra strong clumps, $10.00 for 10.* Delivered in September and October.

Gladiolus, Picardy

Siberian Iris, Perry's Blue

Spanish Iris

Spanish Iris

Graceful, slender stems, with loose but beautiful flowers, the charming colors producing a combination not surpassed by any orchid. The finest effects are produced when planted in clumps in the perennial border; flowering period May and early June. They are also excellent for growing in pots indoors or for forcing.

We have secured a large quantity of northern-grown bulbs, which, although smaller than the California ones, are all hard, firm, and will give more and larger flowers.

Cajanus. Canary-yellow with orange-yellow blotch.

Humboldt. Light blue; fragrant.

King of the Blues. A fine, deep purplish blue.

King of the Whites. Large; pure white.

Louise. Lovely lavender-blue.

Mixed. All colors.

Any of above varieties:

Forcing Iris

For Christmas Blooming

Wedgwood. We are in a position to supply pre-cooled bulbs of this beautiful Iris, that can be brought into bloom for Christmas with an assurance of 100 per cent blooms. Wedgwood is best described as a rich deep blue with a yellow blotch at the top of each fall, enhancing its beauty. *$5.00 per 25; $18.00 per 100.*

Other Forcing Iris

David Bless. Beautiful shade of light blue. Habit and color similar to Wedgwood. *$1.35 per doz.; $10.00 per 100.*

Imperator. Large bright blue flowers. *$1.35 per doz.; $10.00 per 100.*

Wedgwood. For later forcing. See description above. *$2.40 per doz.; $16.00 per 100.*

Ixias

Exceedingly attractive flowers, in exceptionally wide range of colors, on 18-inch stems; foliage is grass-like. They are half-hardy, and should be grown in greenhouses in this locality.

Afterglow. Orange.

Althea. Pale cream with dark brown center.

Beauty of Norfolk. Light yellow, dark center.

Lady Slade. Pink.

Smiling Mary. Bright cherry-red.

85c per doz.; $6.00 per 100.

Lachenalia

Pendula superba. The finest of all the Lachenalia family and most suitable as an attractive Christmas pot-plant. Its pendulous flowers are produced on thick, fleshy stems about 10 to 12 inches in height and remain a long time in bloom. The color is a most beautiful velvety shading of orange-red with a blending of purple at tips. *Flowering bulbs, $3.00 per doz.; $20.00 per 100.*

Leucojum

Lily-of-the-Valley

Leucocoryne Ixioides Odorata

SPECIALLY PREPARED BULBS

We will have available, for delivery in August, Leucocoryne bulbs that have had special treatment. These bulbs should bloom fully a month earlier than bulbs which have not been treated. Furthermore, these specially prepared Leucocoryne bulbs will grow 100%, where regular stock, planted under adverse conditions, sometimes remain dormant in the soil.

$2.60 per doz. *$18.00 per 100*

Leucojum Vernum

(Spring Snowflake)

Charming, early-flowering bulbs producing flowers like giant snowdrops on stems 1 foot high. Perfectly hardy. *$1.20 per doz.; $8.00 per 100.*

Lily-of-the-Valley

Field-grown Clumps. We recommend fall planting of Lily-of-the-Valley for outdoor culture and can supply exceptionally vigorous, field-grown clumps at *$1.50 per 3; $5.00 per doz.*

Rodopel

Protects Bulb Plantings Against Ravages of Rats, Mice, Moles and Other Destructive Rodents

Rodopel is a new material so highly distasteful to rodent pests that they refuse to go near it in their search for food.

It does not kill rodents but drives them away from the plantings. It is harmless to pets and birds.

2-gal. size (for 100 bulbs) $2.00
5-gal. size (for 250 bulbs) $3.75

Lycoris

Purpurea. The bud is wine color changing to royal purple when expanded, giving a startling and beautiful effect. Perfectly hardy. 18 inches. *Strong, flowering bulbs, $1.25 each; $12.00 per doz.; $75.00 per 100.*

Squamigera. They produce attractive green foliage in the early spring, which later dies away, and about a month later the flower stalks appear, growing about 2 feet high and developing an umbel of large, lily-shaped, delicate pink flowers shaded with clear blue. *Extra large, flowering bulbs, $1.00 each; $10.00 per doz.; $70.00 per 100.*

Muscari

See Grape Hyacinths.

Scilla Campanulata

MISCELLANEOUS BULBS AND ROOTS—Continued

Scilla

(Squills; Harebell)

All the varieties of the *Scilla campanulata* and *Scilla nutans* family are splendid for naturalizing because they will flower in shady places. Both have bells like small hyacinths, forming long and graceful spikes. The *Scilla sibirica* is used as a companion to crocus for borders or massing.

Campanulata.

Alba Maxima. Pure white.

Excelsior. Bright blue.

Peach Blossom. Clear pink.

Pearl Brilliant. Light blue.

Sibirica. Sky-blue.

All Above Scillas:

Prince of Orange. A flaming orange.

Mixed Hybrids. *Any of the above:*

85c per doz.; $6.00 per 100.

Marshall's Early Flowering
SPENCER SWEET PEAS

The Early-flowering Spencers bloom about two weeks earlier than the late-flowering varieties when grown under congenial conditions. The flowers are beautifully waved and produced on long stems, four flowers predominating on each stem. For winter flowering under glass or in the southern states they far surpass the Late Spencers. When grown in the open ground they will usually bloom in about 100 days after planting.

Amethyst. Royal purple.

HARDY PERENNIAL PLANTS

— for Fall Planting

Doronicum

Hardy plants both for the rock garden or border can be planted to advantage during the late summer and early fall. A most comprehensive list will be found in our general catalog. Below we are adding some of the rarer varieties of hardy perennials and rock plants.

OUTSTANDING HARDY ASTERS

Beechwood Challenger. Free flowering, of medium height, about 3½ feet. In early fall it is completely covered with brilliant crimson-red flowers. Planted with Mt. Everest the contrast is striking as well as handsome in the early fall garden. *50c each; 3 for $1.40; 10 for $3.75.*

Blue Bouquet. Large, clear violet-blue flowers with yellow eyes. Very charming. 1½ feet. October.

Charles Wilson. A bright red Aster which is getting many laudatory comments from test plantings throughout the country. Grows 3 feet high and is very good.

Harrington's Pink. Large flowers of bright, dainty pink, attaining a height of from 3 to 4 feet. The best pink hardy Aster to date. *50c each; 3 for $1.40; 10 for $3.75.*

Mt. Everest. Very tall, well-shaped pyramids of flowers right down to the ground. The blooms are large, pure white, with a very small yellow eye, and, unlike other Asters, the old flowers do not discolor the mass.

Olga Keith. A splendid new Aster of compact habit. Produces a great quantity of rich rosy pink flowers during September. 2 ft.

Pink Nymph. A most profuse bloomer and one that is sure to please. The charming flowers open a rich rosy red which changes to bright pink as they mature. 4 feet. September.

All above Hardy Asters (except where noted): 3 for $1.10; 10 for $3.00.

AQUILEGIA - Columbine

These are invaluable for spring bloom, producing their graceful spurred flowers on stems rising 2 feet above their attractive foliage, during May and June.

Michell's Long-Spurred Hybrids, Mixed. The plants are of strong, thrifty growth and the flowers of the largest size. Can be supplied in separate shades: Blue, Pink, and Red and Orange. *30c each; 3 for 85c; $3.00 per doz.; 25 for $5.50.*

Crimson Star. Large, brilliant dark crimson flowers on vigorous stems 2½ to 3 feet high, from May until July. *35c each; 3 for $1.00; $3.50 per doz.; 25 for $6.50.*

Longissima. Flowers of delicate pale yellow with spurs 4 inches long, produced abundantly from late May on. *35c each; 3 for $1.00; $3.50 per doz.; 25 for $6.50.*

DORONICUM - Leopardsbane

Excelsum. A very showy, daisy-like flower of clear bright yellow, excellent for cutting. Blooms in April and May. *3 for $1.10; $3.00 for 10.*

DOUBLE PYRETHRUMS

Brilliant. A glowing and striking crimson of exquisite form and texture.

Buckeye. Double flowers of a crushed raspberry color.

Lord Roseberry. Magnificent double flowers of a glowing pink.

Miami Queen. This luscious deep pink variety has won instant recognition for its merits. It blooms with unstinting abundance during May and June, and often again in the fall.

Purity. Double; pale pink.

Sylvia. A very fine white variety.

All Double Pyrethrums: 3 for $2.00; 10 for $5.50.

ORIENTAL POPPIES - Papaver Orientale

Beauty of Livermore. The finest dark crimson with jet-black blotch. Excellent flowers borne in great profusion.

Mrs. Perry. Beautiful large flowers in a soft shade of salmon-rose. This variety should be in every garden.

Olympia. New, double variety. Brilliant scarlet flowers overlaid with golden salmon—a most beautiful combination.

Perry's White. Pure satiny white with a bold crimson blotch at the base of each petal.

Wurtembergia. One of the finest rich orange-red varieties.

All Oriental Poppies: 3 for $1.40; 10 for $3.75.

GAILLARDIA, SUN GOD

Pure golden yellow throughout, free from markings of any kind. This glorious Blanket Flower never fails to attract attention. The flowers are large, with broad, overlapping petals. Fine for cutting. *3 for $1.40; 10 for $3.75.*

GEUM - Avens

Well-known plants noted for their rich coloring and freedom of flowering. Useful for cutting and the rockery or border. May-July.

Borisi. Forms neat foliage tufts with many-branched stems 8 to 12 inches high, covered with large, vivid orange-scarlet flowers from May to October.

Fire Opal. Dazzling rich scarlet flowers with orange sheen, often measuring 3 inches in diameter. Very free flowering. May-October.

Princess Juliana. An excellent new hybrid with large, double, pure orange flowers on stout stems. Exceedingly free flowering. Early June-October.

Any of the above: 50c each; 3 for $1.40; 10 for $3.75.

Marshall's PEONIES — READY IN SEPTEMBER

The Peony roots offered by us are vigorous, flowering-size clumps of from 3 to 5 eyes. Peonies are gross feeders and the ground in which they are planted cannot be too heavily fertilized.

The best time to plant is September 1st to freezing. Crowns should be planted from 2½ to 3 inches below the surface of the soil.

Marshall's Pot Grown STRAWBERRIES

for Summer and Fall Delivery

The best time to plant pot-grown Strawberries is during the month of July and early part of September. They have the great advantage over "layer" plants of producing a crop of the largest and finest berries the first season after planting. Further than this, they may be safely planted in the hottest and driest weather without serious check to growth, and may be planted where early potatoes, peas, or other early crops have been harvested.

Extra Early Varieties

	25	100
Early Jersey Giant. The earliest variety, producing large fruit, with a rich, wild Strawberry flavor	$2.25	$8.00
Premier. Produces vast quantities of sizable attractive berries of excellent quality	2.00	7.00
Success. An excellent variety with large, uniform berries of bright scarlet color	2.00	7.00

Everbearing Varieties

	25	100
Gem. The new everbearing sensation, producing bright, sparkling red berries, uniformly large in size. They are solid red to the center, juicy, deliciously sweet, and very free from acid. A winner in flavor, quality, size, beauty and yield. Does well on all types of soil	2.75	10.00
Mastodon. "The Wonder Berry." One of the largest, most delicious and heaviest yielding of the everbearing sorts	2.75	10.00
New Perfection. This is the Strawberry which has taken California by storm, and which has produced 18,000 baskets per acre of huge, delicious fruit over a bearing period from mid-spring until very late fall	$3.50	$12.00
Progressive. A popular variety with two large crops, one in June and a second which lasts throughout the fall	$2.75	$10.00

Medium Early Varieties

	25	100
Bun Special. A very productive variety with large, luscious fruit	$2.00	$7.00
Dorsett. Large, bright red, firm berries of excellent quality. Introduced by the U. S. Department of Agriculture	2.00	7.00
Fairfax. The best of the medium-early class. Fine large bright red berries of extra size. Another introduction of the U. S. Department of Agriculture	$2.00	$7.00
Senator Dunlap. A large cropper with firm berries of excellent flavor. Does well in almost any soil	2.00	7.00

Midseason Varieties

	25	100
Aberdeen. Produces big crops of large, light red, quality berries. A perfect home garden berry	$2.00	$7.00
Brandywine. Produces bright crimson berries of excellent flavor	2.00	7.00
Catskill. A heavy yielder of excellent fruit, being very productive and of high quality	2.25	8.00
Glen Mary. Wonderful high quality and great productivity are the qualities of this berry	$2.00	$7.00
Joe. Large, firm berries in abundance. Equally attractive to the eye and palate	2.00	7.00
Marshall. Though an old berry it has lost none of its popularity. One of the best for forcing	2.00	7.00

Late Varieties

	25	100
Big Late. Ranks with best in vigor of plant-growth, productiveness and quality. Large, bright, glossy red berry	$2.00	$7.00
Chesapeake. This variety requires high culture upon clay loam. The berries are firm and bright crimson in color	2.25	8.00
Gandy. An old and popular variety. The texture is of the firmest and the color a bright flame	$2.00	$7.00
New Washington. An excellent variety of high quality. We recommend giving this a trial	2.00	7.00
William Belt. Fruits from early to late on any soil. Very large crimson berries	2.00	7.00
